

PLAYGROUND EQUIPMENT AND PLAY STRUCTURES

CITYWALL – OVER 35 YEARS OF VERTICAL INNOVATION

CityWall develops and manufactures high-quality climbing solutions. By combining engineering expertise, innovative design, and advanced materials, we create climbing walls that meet the highest standards of quality, safety, and functionality.

Our portfolio includes a wide range of climbing solutions – from all types of climbing walls to safety mats and climbing equipment for indoor and outdoor playgrounds.

Through continuous innovation in materials, design, and technology, we set the benchmark for excellence in climbing infrastructure. As industry leaders, we deliver fully integrated turnkey solutions – expertly managing every stage from concept and design to production, installation, and long-term support.

We approach every project individually, with a clear goal: to create unique climbing environments that combine functionality, safety, and an outstanding user experience.

Our projects can be found across Europe, while we are also expanding our presence in Asian and North American markets. Reliability, innovation, and expertise are the core values that enable us to deliver projects built to last.

CLIMBING STRUCTURES – ROCKS

Bring the experience of natural rock climbing to any playground. Designed to resemble **real rock formations**, these structures create an engaging and adventurous environment for children. With their attractive design, they quickly become a focal point of any playground, **encouraging children to stay active and return for new challenges.**

Rock-shaped structures are an excellent way to **attract new visitors and enhance the overall appeal of the space.**

PRICE LIST:

- Small rock: 4.715,00€
- Large rock: 8.075,00€
- Large boulder: 7.970,00€

MODULAR CLIMBING WALLS FOR OUTDOOR AREAS

We design and install **safe, functional modular climbing walls** for schools, gyms, and tourist facilities, perfectly suited for outdoor environments. Climbing naturally combines **play, movement, and challenge**—making it a favorite activity among children.

Climbing walls are an excellent solution for recreation while also **enhancing the appeal** of your **space** and **attracting new visitors**.

Price: from 350 euro/m² holds included

MODULAR INDOOR CLIMBING WALLS

We **design, manufacture, and install high-quality modular climbing walls** for schools, kindergartens, sports centers, and tourist facilities. Engineered for **safety, durability, and performance.**

Climbing enhances strength, coordination, and confidence – an ideal addition to any recreational or educational space.

Customized solutions tailored to your space.

Starting from €490/m² including holds and mats

THEMED CLIMBING STRUCTURES

Tomy the Elephant, Luca the Rhino, Nelly the Dinosaur, Torro the Bull, and the Catalan Donkey – turn any playground into a true **attraction!**

Climbing animals **entertain children, encourage movement,** and **attract new visitors to the playground.**

MAZE STRUCTURES AND CLIMBING SYSTEMS WITH SLIDES

Labyrinths, hidden passages, and multiple exits create an exciting adventure that encourages children to **explore, move, and play**.

Each maze is **a custom-designed solution** that can be **integrated into a climbing wall or other play areas**.

Ideal for indoor playgrounds, entertainment centers, climbing gyms, hotels, and schools, **offering an active and safe environment for active play**.

Price: from €500/m²

Mazes and structures with slides, priced from 490 euros/m², holds and mats included.

PE CLIMBING HOLDS – DESIGNED FOR CHILDREN

Ergonomically designed for small hands and feet, CityWall PE holds provide a safe and engaging climbing experience.

Playful shapes encourage movement while developing strength, coordination, and confidence.

Ideal for playgrounds, schools, and family spaces.

AVAILABLE IN VARIOUS SHAPES AND DESIGNS

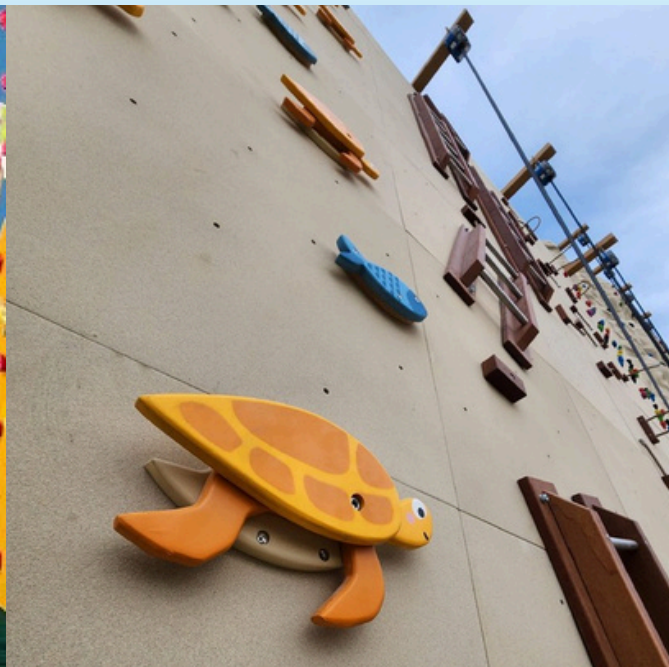

WOODEN CLIMBING HOLDS

CityWall children's **wooden** climbing holds offer a **secure, comfortable grip** for a **safe** and **enjoyable climbing experience**. Inspired by nature and animal shapes, they turn climbing into a **playful adventure** while **supporting movement and motor skill development**. Ideal for climbing walls, playgrounds, schools, daycare centers, hotels, and family spaces, adding a **warm and natural aesthetic**.

wooden holds - various designs available

SAFETY MATS – FLOORING SOLUTIONS

We offer a wide range of safety mats, fully tailored to your needs and space.

PVC covers are easy to maintain and ideal for indoor and outdoor climbing walls with high traffic, offering excellent durability and long service life.

Carpet covers are perfect for bouldering and freestanding climbing walls, providing maximum comfort while enhancing the visual appeal of the climbing environment.

Custom solutions: mats can be tailored in terms of material, thickness, density, and color to meet your specific requirements.
