

CITYWALL

CLIMBING WALLS AND ACCESSORIES

CLIMBING SYSTEMS AND TECHNOLOGIES FOR THE FUTURE

WHO IS CITYWALL

CITYWALL as a brandname has been present on the sportclimbing market for twenty years. We offer a complete technical support to our customers: consulting, designing, engineering, production, installation, testing, servicing, instruction courses, routesetting and accessories supply.

CITYWALL brand includes a comprehensive range of all types of climbing walls, mattresses, playground climbing equipment and other climbing accessories. We consider ourselves as a total-solution provider.

In all these years we have developed many different materials, shapes and technologies. Development is our driving force and in this we firmly believe.

CITYWALL is a synonym for quality, innovation, safety and enjoyment, as a result of years of tradition and experience.

CITYWALL projects and products are being carried out in European countries, in Austria, Germany, Spain, Switzerland, Italy, Hungary, Croatia, Serbia, Sweden and Norway.

We are expanding our activities further to Asian and North American market, to Singapore, Hong Kong, South Korea, India, Japan and Canada.

We will surely satisfy all your requests.

Our advantages are:

- quick response
- comprehensive approach
- personal communication
- constant availability throughout the whole process of the project
- wide selection of materials
- unique solutions and
- professional team.

QUALITY

Satisfied customer

We use and implement only the best materials and we strive to have no complaints. CITYWALL products and service will meet and exceed customer's expectations.

With proper use and regular maintenance our products have long life time expectancy even after the warranty period has expired.

Our aim is a satisfied customer.

INNOVATION

The power of inspiration

We constantly adapt to the needs and requirements of the market and customers. We seek and find new and different solutions.

The customer is our inspiration.

SAFETY

Feel secure

CITYWALL products are made in accordance with all regular safety standards and they have passed all the required tests, certificates and statements of compliance.

We ensure, that safety standards are taken into account during installation and implementation.

ENJOYMENT

Life is beautiful

Climbing itself gives a feeling of total freedom.

If however combine climbing, freedom and CITYWALL, the result may be pure pleasure.

TRADITION

Focused to the future

In our team we have experts, who have been dealing with climbing for several decades. All these years we follow the needs and development of sports climbing as a sports activity and we create the development of the industry itself.

Coming from Slovenia, country with the best alpinists and sport climbers in the world, we have an opportunity to include in our team the experts, that represent the new generation of climbing.

We are combining many years of experience and knowledge of new trends in climbing as a sport and as industry.

VERTICAL LIFE

The art of climbing

CLIMBING WALLS FOR KINDERGARDENS

Climbing as a primal form of movement should be encouraged. CITYWALL will bring it closer to the children!

With the use of climbing holds of kid's shapes the children will be motivated even more!

CLIMBING WALLS FOR SCHOOLS

Each school should have a climbing wall as a part of sports equipment in a school gym or outside.

CITYWALL team will advise you to choose the optimal, safe and functional solution for your available space, either indoor or outdoor, boulder or high climbing wall.

CLIMBING CENTRES

Climbing as an urban sport is increasingly on the rise. An intensive daily pace of life requires of you a moment to stop and to take some time for yourself. A climbing centre is the right place to forget about your everyday concerns.

Our CITYWALL team will take care of the engineering of the whole project of your climbing centre: from the idea to the execution. Our advantage is quick responsiveness, dedication to the project, availability to the customers and readiness to react 24/7.

Our polyester and plywood division enable us to supply different materials for climbing surface as well as for subconstruction.

You can choose from our wide selection of accessories, such as climbing holds and volumes from our own production, but we can provide also other well known brands.

CLIMBING TOWERS

These attractive climbing structures are especially recommended for tourist and recreational areas, but as well for military forces, civil defence or fire brigade practice. A platform on the top can be used for rapelling or zip line, that will increase the adrenaline climbing experience.

ARTIFICIAL SELFSTANDING BOULDERS

With its attractive design a climbing boulder can be a decorative and functional accessory of playgrounds, schools, parks, sports and tourist areas, indoor or outdoor climbing centres. It is considered a low climbing wall, where no rope protection is needed.

MOBILE CLIMBING WALLS

Parties, promotions, fairs, presentations, team building.

CITYWALL mobile climbing wall on a trailer will be an absolute star of your event!

It is made of glass reinforced polyester, either in Realrock or Freeform climbing surface option, but we can make it completely flat made out of custom made triangles.

You can choose among boulder and tower option.

To rent or to purchase.

CLIMBING WALLS ON CRUISESHIPS

CITYWALL has specialized in building climbing walls on luxury cruise ships, where we use materials, resistant to extreme weather impacts.

These climbing walls can be made of modular polyester panels, as well as of custom made flat triangles or custom made Freeform surface, resembling natural rock-like surface.

CLIMBING WALLS FOR POOL AREAS

Climbing is an adrenaline sport.

A climbing wall can be implemented as a part of water attractions in aquaparks, spas, pool areas. Climbing on CITYWALL climbing wall above a pool will add a special adrenaline experience to the visitors.

We will add climbing holds and the screw material, that is appropriate for wet and moist areas, so that no rust will appear.

DECORATIVE WALLS AND CLIMBING WALLS AS A CONSTRUCTION ELEMENT

Climbing wall surface is not intended just for climbing. It can be an attractive eye-catcher as a construction element.

Since we follow the same standards as for climbing walls and we use materials for outdoor purposes, these surfaces are strong and resistant to extreme climate conditions. We can implement water elements such as waterfall or pond and add some artificial greenery to get more natural look.

CITYWALL modular outdoor polyester panels can be used for covering the facade, as well as custom made Freeform or Realrock surface, which is an exact copy of a natural rock.

If you require a larger quantity of climbing panels, we can arrange molds adjusted to your particular project.

TRAINING PROGRAM

We can fully equip your training corner with a custom made stick board, campus board or sloper board.

CITYWALL inclination climbing wall is an excellent choice to supervise your climbing improvement. Its inclination can be changed with an electric motor by using a remote control.

Become better with CITYWALL!

PLAYGROUND EQUIPMENT

All CITYWALL playground equipment is compliant with EN 1176 standard and has got a Certificate of compliancy.

Following the customer's requests we can make custom made playground climbing equipment as well. We check static stability and take care that all the safety standards are taken into account.

Our team of artists will put your imagination into reality!

CITYWALL has designed climbing holds for children, that meet the EN 1176 standard. The system of two screws prevents turning and their special shape does not allow any part of the body to get stuck.

ONLY SKY IS THE LIMIT

Total freedom

PLYWOOD OR POLYESTER CLIMBING SURFACES

At CITYWALL we are offering a wide selection of options for climbing surfaces regarding materials and the covering of panels.

The polyester climbing surface is appropriate for indoor or outdoor climbing walls, while plywood is mostly used for indoor climbing walls.

Multi coloured surface with lines or curves

The modular system of flat or three dimensional polyester freeform panels is advised for climbing walls for kindergardens, school and recreational climbing walls

Custom made polyester flat triangles and other custom made shapes enable to have a high quality weather resistant and diverse outdoor climbing wall.

Especially kindergardens will more likely choose a coloured surface with vivid and attractive colours, or perhaps a printed surface to include didactic aspect to the climbing wall.

The freeform polyester surface imitates a rock-like morphology, and what is the best about it – imagination has no limit!

Getting more natural appearance of the climbing wall surface by using transparent glaze.

Realrock climbing surface

CRACKS AND HANDMADE STRUCTURES

Our GRP division enables us to follow nature by mimicking the natural features, structures, surfaces.

We can make nature-like cracks, that will make you feel like you are climbing in a big wall.

Our handmade stalactites and cave rock formations will leave you breathless.

Wake up, it's CITYWALL!

PRODUCTION FOR OTHER BRANDS AND BRINGING YOUR IDEAS TO LIFE

Specific local market needs sometimes require specific products. We can take care for realization of your idea, development of your product and its production.

Together with our catalan partner Happyludic we brought to life the Triplets and a bored witch, a famous catalan story. All the characters from the story are part of the playground elements and a real highlight for the children.

We produce for other brands. Join us, Happyludic, Didak's climbing holds, Pyramide and Volx!

Choose among plywood or polyester material for your products.
